

Carroll County Council of PTAs is pleased to present you with our handbook. Please make use of the many resources available. PTAs should know they need face to problem alone. County, state, and national PTA has a wide network of contacts to provide your local PTA with any help.

As a member of the Carroll County Council we learn to depend upon one another. It is imperative that officers are trained and interaction occurs with other local PTAs. This resource book should provide you with the basic information needed for the successful operation of your PTA.

Please call me or your school's representative if you have any questions, comments, or concerns. Remember council is always looking for new ideas which usually start at your local level. Thank you to all who have helped CCCPTA continue to serve *every child with one voice.*
